

THE POCHE WEEKLY RECORD.
SATURDAY, NOVEMBER 22, 1879.
LOCAL INTELLIGENCE.

SHOOTING AT THE HILLSIDE MINE.—There not being any person injured or killed at the Hillside mine for about a month, it became monotonous, and as variety is the spice of life, the boys out there last Monday indulged in a little bad whisky, powder and lead, and John Hurley was shot in the shoulder, and a ball also hit him on the ribs and glanced off. We have heard several tales in regard to the trouble, and there is no telling which is correct. It appears that the disturbance originated over a game of cards and Hurley was ejected from the saloon, which is located near the mine, and is under the charge of John Wheatley. After being ejected Hurley went and armed himself with a six-shooter, and on returning to the saloon a couple of men were sent to intercept him and persuade him from going any further. Their influence was of no avail however, and he still advancing, Wheatley went in and shut the door, either locking it or placing something against it. Hurley advanced, burst open the door, and was shot, as stated above. Wheatley came to town and gave himself up, but was let go on his own recognizance until the results of Hurley's injuries were ascertained. Hurley was brought to town Tuesday and his wound was examined and dressed by the doctor. The wound is not serious, but the bullet yet remains in the shoulder.

SQUAW KILLED.—Wednesday afternoon, while one of our citizens was out walking near the second canyon beyond the slaughter-house, he heard the discharge of a gun; four shots were fired, the first two being in rapid succession. At the same time he observed a great commotion among the Indians up on the hill, they yelling, throwing rocks, etc. Thinking that the Indians were up to some devilry he sent the Sheriff out, who learned that a squaw had been shot and dragged to a shaft and thrown in. The tracks of her blood were yet warm on the ground and showed on the side of the shaft where they had thrown her in. The Sheriff questioned a lot of the reds in regard to the matter, but could learn nothing, some telling him it was a horse killed, others a squaw, while most of them said they knew nothing about it. We learned that it was a squaw killed and that she was murdered because she had given birth to a red-headed papoose. Poché Indians have a great objection to red-headed babies.

DAY OFFICIAL LETTER.—The following is the official letter of A. S. Gould, Superintendent of the Day mine, dated November 21st. "I have written and telegraphed you several times since my last weekly letter, so there is little left for me to say to-day. We still have fair ore in the back stopes from the north drift, and continue to load two teams to the furnace every day. I have let a contract to run the southwest drift fifty feet, where we have an excellent showing, the ore already coming in about eighteen inches wide, and of high grade. Some of our men are very handsome. We are pushing the incline winze with double shifts, and I think, despite the bad ground, that we can reach our new ore body, discovered through the cave, in about ten days. Our pulp assays yesterday raised to \$97.

MATFLOWER MINE.—Bristol, November 21st: During past week have extended drift seven feet, total length 20 feet. On the north side of the face of the drift we struck into a cave, carrying ore on the sides and bottom, showing large seams and open fissures ahead. We are not far enough in with the drift yet to thoroughly explore it. In face of drift we opened into another cave last night; it looks as if it is larger than the cave on the north side. It will take a couple of shifts to break through so we can examine it. The bottom of the drift is in soft ore. Will be able to thoroughly explore both caves this week.

OFFICIAL LETTER.—The annexed is the official letter of H. Mill, Superintendent of the Raymond & Ely mine, dated November 21: "We are still taking out usual amount of ore from between the 10th and 12th levels. We expect soon to strike a large body of ore, but of low grade, and when we do get it opened as soon as possible. The general prospects of mine look very well. Mr. Kilbourne is still hard at work getting ready for the roaster, and two weeks from time the roaster arrives we expect to have it going. We are taking out ore from black ledge, so as to have plenty on hand when roaster is working.

FAIRVIEW SPRINGS.—These springs, which are situated some five miles from Bristol, were purchased last week by the Hillside Mining Company. It is the intention of that company to erect a large reservoir at Bristol, lay pipes and bring the water into that town. The water supply heretofore has been a source of uneasiness to Bristolians, but in the near future this aggravation will be dispensed with. It was necessary for the company to purchase these springs or else they would have been unable to run their water-jack furnace and refinery.

TAX MATTERS.—Monday evening the time for payment of taxes closed and the Treasurer on summing up the payments found that the sum of \$22,266.05 had been paid into the Treasurer by the taxpayers. The sum total of taxes to be paid was \$28,724.58, leaving delinquent and unpaid \$6,458.53. Of this amount \$1,503.18 was delinquent in Poché, the balance being in the county.

FRIGHT MATTERS.—There is considerable kicking among the merchants of Poché in regard to not receiving their freight regular, owing to it being held back at Juab and the terminus of the Utah Southern railroad, by the forwarding agents at those places. Those forwarding agents are also agents for the sale of wagons, and they let the goods accumulate, offering them as freight to the teamsters who purchase their wagons. If the teamsters refuse to purchase wagons from them, the goods lie at Juab and the terminus. The merchants here are tired of this business and are making efforts to have the Enreka and Palisade Company start once again, and there is no doubt but what they will, in which case no more freight for Poché will come by Utah.

FIGHTING MANIA.—Coincident with the expectation that last Monday would be pay-day and business liven up, was a general mania that evening to engage in a row or fight. A series of rows were inaugurated varying in importance from a light set to, where the combatants did not desire to hurt each other, to more serious affairs in which human blood was figured. One man had his right hand bitten very severely, and other casualties occurred, but none so bad as to prevent men from pursuing their ordinary avocations after a little sleep.

RAYMOND & ELY BULLION.—On Monday the train brought up from the Raymond & Ely mill \$6,000 in bullion, the first shipment on the November account. These shipments will keep up for some time as the dump at the mill is full of ore, the ore-house at the mine is crowded, and there is over 1000 tons in the mine taken out but not hoisted. The delay in shipment of bullion this month was caused by the repairs going on at the mill, which is now in splendid condition and will not need repairing again for some time.

FOR HIKO.—Last Monday Charley Heath, Superintendent of the Valley Mill and Mining Company at Hiko, left for that place, taking with him Wm. Frazier, assayer, and Joe. Griffin, an engineer, for the purpose of starting up the mill. It will take about ten days after the engineer's arrival there to fix things in running order when the mill will be started, and Hiko will once again help to swell the bullion shipments of Lincoln county.

BE CAREFUL.—Postmaster General Key has promulgated a new law to the effect that all letters must have the county and State addressed upon them, or else the postmaster is directed to forward them to the Dead Letter office. For instance, if you wish to send a letter to Bristol, Poché, Bullionville or Royal City, it won't simply do to address them to those places, but "Lincoln county, Nevada," must also be placed on the letters.

A REUS.—Monday last being the final day for the payment of taxes, previous to 10 per cent, being added, considerable rustling was done to raise the money with which to settle. The Treasurer's office was crowded during the day and up to 9 o'clock that night by those who always put off paying their taxes until the last minute.

DELINQUENTS.—We publish the delinquent lists of the Meadow Valley and Mayflower mines this morning. The list of the Meadow Valley commences on the third page and is continued on the fourth. The day of sale is December 3.

THE FIRM OF BYERS & McCULLOUGH of Pittsburg, Pa., won the suit which they had against F. W. Clute. The U. S. District Court at Carson decided the case in their favor and there will probably be no appeal from the decision.

THANKSGIVING.—Panaca Saloon, No. 1000 Main street, returns thanks for past favors and solicits a continuance of the same. Everything of the best in the Liquor and Cigar line, only one price! one bit!! "Pay as you go."

EPISCOPAL CHURCH.—Services will be held at the Episcopal Church Sunday evening. Hereafter services will be held every other Sunday evening.

THE FIRST PARTY given by the Young Men's Social Club this season took place Wednesday evening and was a very pleasant affair.

THE ROASTER, fire-brick, etc., for the Raymond & Ely Company left Enreka on the 17th and is expected to arrive here Thursday.

OWING TO THE late arrival of a couple of delinquent lists we are unable to publish our usual amount of reading matter this morning.

POCHE BULLION.—\$6,030.72 in bullion was shipped during the past week by Wells, Fargo & Co.

THE annual election of officers of St. John's Lodge No. 16, F. & A. M., takes place this evening.

CLERK.—Charles H. Wertheimer has been appointed clerk for the Day S. M. Company at Poché.

THE Day mine paid off the 15th and the Raymond & Ely yesterday.

NEXT Thursday is Thanksgiving Day.

IT is an interesting fact that since Boston became a city, there have been only two City Clerks—the first S. F. McCleary, Sr., serving for thirty consecutive years, and the second, his son, S. F. McCleary, Jr., serving for the past twenty seven years.

A party of Cleveland youths marched around town the other day wearing elegantly-trimmed bonnets. When the police asked them to explain they pointed to ladies promenading the streets with men's hats on, and simply said, "Turn about is fair play."

BRISTOL ITEMS.

The Hillside furnace for the week ending November 20th reduced 372 tons of ore, and shipments of bullion during that time to the Utah Southern railroad east, via Juab, were as follows:

| | |
|------------------------------------|------------|
| November 14, Hillside bullion..... | 11,812 1/2 |
| November 15, Hillside bullion..... | 9,402 1/2 |
| November 16, Hillside bullion..... | 12,100 1/2 |
| November 17, Hillside bullion..... | 10,911 1/2 |
| November 18, Hillside bullion..... | 12,247 1/2 |
| November 19, Hillside bullion..... | 11,941 1/2 |
| November 20, Hillside bullion..... | 12,167 1/2 |

Total number of pounds.....50,299 1/2
Assay value of bullion.....\$18,136.55.

There is no new developments to note in the Hillside mine this week, except that the ore-body on the 6th level, as they get into it, shows a much larger per cent. in lead than the average. The stopes on the upper levels continue yielding their usual amount of ore and the machinery is in good working order.

The saloon of John Quinn's presents a very neat appearance, it having been thoroughly renovated and the new awning completed, which adds much to its present look.

The Hillside shows no decrease in its bullion shipments and the furnace continues running the truck out in large quantities.

A good deal of prospecting is now being done on the hills adjacent to town.

A large amount of lumber has arrived for the Hillside Company.

HE WAS GLAD TO GO.

[S. F. Alta.]
In the Police Court, yesterday morning, Manuella Sebastian, was on trial for robbing George S. Tait of \$40, while he was in her saloon on Stevenson street, last Friday night. Tait's story is the choicest version of the affair. He addressed Judge Louderback as follows:

"You see, I went into her saloon last Friday and had a glass of beer and went away. Then I went back and had another glass of beer, and she asked me to come in again that evening. So I went in and had another glass of beer, and she asked me did I play cards. I told her yes. Says she: 'What do you play?' Says I: 'Almost anything.' Says she: 'Don't you play crib?' Says I: 'I don't count crib very well.' Says she: 'What do you play well?' Says I: 'Seven-up or enbure.' Says she: 'Do you play casino?' That's a lady's game.' Says I: 'Yes; I am h-l on casino.' So we sat down about seven o'clock and played the lady's game until half-past eleven, neither one of us winning much, and I got ready to go. But, says I, and I pulled \$40 out of my pocket, and put it on the table, 'if you had beat me, you'd have won a nice little pile of money.' Says she: 'You son of a sea cook, I'll have it anyway!' And with that she grabbed it. I tried to take it away, but she knocked me kerfuekin' on the floor and pulled out some of my beard, and here's the beard year Honor, and George presented the Court with several capillary specimens. "She got most of the money, and the bartender helped her walk up to the bar by the beard. Then they made me chuck up another dollar to treat the crowd. Then they fired me out. And I tell you, your Honor, I was d-d glad to go."

"Minnat's use vulgar language in the Court," said his Honor; "reduce the charge to petty larceny and continue the case until to-morrow."

JEFFERSON'S TEN RULES.—Take things always by the smooth handle. We seldom repent of having eaten too little. Pride costs more than hunger, thirst and cold. Nothing is troublesome that we do willingly. Never spend your money before you have it. Never buy what you don't want because it's cheap. Never put off until to-morrow what you can do to-day. How much pain the evil costs us that have never happened! When angry, count ten before you speak; if very angry, count a hundred.

A deed conveying all the "lanes, rivers and mines, minerals, woods, fishings, hawkings, huntings, and all other royalty" in the State of New Jersey, is in the possession of Joseph Riley, of Woodstown, N. J. It is dated April 13th, 1677, and is given under the grant of Charles II. of England to William Penn, Nicholas Lucas, Gowen Lowry, and Edward Billings, for a yearly rent of twenty nobles (\$32.20).

A woman who was called as a witness in an assault case tried in the Edinburg Police Court recently, on being asked by the Magistrate what was the profession of her husband, answered promptly: "My husband is a bankrupt, sir."

A London journal estimates that the Irish in America have sent home to their friends in Ireland since 1837 not less than \$75,000,000. Much of this vast amount has been used to defray the expenses of immigration to this country.

Some crusty, rusty, fustly, musty, dusty, gnaty curmudgeon of a man gave the following toast at a celebration: "Our fire-engines—may they be like our old maids—very ready, but never wanted."

FRIDAY'S QUOTATIONS.
